

**Amendment to the Claims:**

This listing of claims will replace all prior versions and listing of claims in the application.

**Listing of Claims**

Claims 1-17 (Canceled).

Claim 18 (Currently amended). An isolated polypeptide having the amino acid sequence of SEQ ID NO. 332 or a polypeptide having at least about 95% sequence similarity to SEQ ID NO. 332, wherein the polypeptide elicits an immune response when administered to an individual. ~~comprising a member chosen from:~~

~~(a) — a polypeptide having at least 70% identity to a second polypeptide having an amino acid sequence chosen from: table B, E or H;~~

~~—— (b) — a polypeptide having at least 95% identity to a second polypeptide having an amino acid sequence chosen from: table B, E or H;~~

~~—— (c) — a polypeptide having an amino acid sequence chosen from table B, E or H;~~

~~—— (d) — a polypeptide having amino acid sequence chosen from: table B, E or H or fragments, analogs or derivatives thereof;~~

~~—— (e) — a polypeptide capable of generating antibodies having binding specificity for a second polypeptide having a sequence chosen from table B, E or H;~~

~~—— (f) — an epitope bearing portion of a polypeptide having an amino acid sequence chosen from: table B, E or H;~~

~~—— (g) — the polypeptide of (a), (b), (c), (d), (e), or (f) wherein wherein the N-terminal Met residue is deleted; or~~

~~—— (h) — the polypeptide of (a), (b), (c), (d), (e), or (f) wherein the secretory amino acid sequence is deleted.~~

Claim 19 (Original). The polypeptide of claim 18 wherein said polypeptide has the amino acid sequence of SEQ ID NO. 332 ~~is (f)~~.

Claims 20-24 (Canceled)

Claim 25 (Currently amended). A vaccine composition comprising a polypeptide according to ~~any one of claims 18-24~~ claim 18 and a pharmaceutically acceptable carrier, diluent or adjuvant.

Claims 26-33 (Canceled).

Claim 34 (Currently amended). ~~Use of~~ A method of treating or preventing Streptococcus infection in an animal susceptible to or infected with Streptococcus comprising administering to the animal a therapeutically or prophylactically effective amount of a vaccine composition according to claim 25 ~~for the prophylactic or therapeutic treatment of Streptococcal infection in an animal susceptible to or infected with streptococcal infection comprising administering to said animal a prophylactic or therapeutic amount of the composition.~~
